Why Lightyear?

✓ Verifies what's being approved

ApprovalMax makes sure the right people say yes; Lightyear makes sure what they're saying yes to is correct.

✓ Price checking automation

Lightyear checks every invoice line against your agreed supplier prices — ApprovalMax doesn't.

✓ Statement reconciliation

Lightyear automatically reconciles supplier statements to catch missing or duplicate invoices before approval.

✓ Deeper 3-way matching

Lightyear matches at line level across invoice, PO and goods receipt — not just bill-to-PO.

✓ Simpler pricing at scale

Lightyear is credit-based with unlimited users and entities. ApprovalMax charges per organisation.
