Why Lightyear?

✓ Controls what you're charged for

Compleat manages what you're buying; Lightyear controls what you're being charged for it.

✓ Price checking automation

Lightyear automatically flags invoice lines that don't match your agreed supplier prices. Compleat does not.

✓ Statement reconciliation

Lightyear auto-reconciles supplier statements to catch missing invoices before they become a problem.

✓ Fraud detection

Lightyear verifies supplier bank details on every invoice to block payment fraud attempts.

✓ Transparent pricing

Lightyear publishes its pricing openly. Compleat requires a sales conversation before any pricing is shared.
