Why Lightyear?

✓ Built for businesses, not just enterprises

SAP Concur is built for global enterprise complexity; Lightyear is built for businesses that want powerful AP automation without the implementation project.

✓ Fast to implement

Lightyear can be running in days. SAP Concur implementations typically take months and require dedicated resources.

✓ Price checking automation

Lightyear automatically checks every invoice against agreed supplier prices. SAP Concur has no equivalent.

✓ Statement reconciliation

Lightyear auto-reconciles supplier statements. SAP Concur focuses on expense and travel, not supplier reconciliation.

✓ Transparent published pricing

Lightyear publishes GBP and AUD prices. SAP Concur requires a custom enterprise quote with no public pricing.
