Why Lightyear?

✓ Verifies invoice content, not just flow

Yooz automates the flow of invoices; Lightyear automates the verification of what's on them.

✓ Price checking automation

Lightyear checks every invoice against your agreed supplier prices. Yooz has no price checking feature.

✓ Statement reconciliation

Lightyear auto-reconciles supplier statements to catch missing invoices. Yooz has no equivalent.

✓ Free trial

Lightyear offers a 30-day free trial with full access. Yooz offers demos but no self-serve free trial.

✓ Transparent pricing

Lightyear publishes GBP and AUD prices. Yooz pricing is volume-based and requires a sales conversation.
