- Automated statement reconciliation
- Unlimited users on all plans
- Deeper 3-way matching (line-level)

Why Lightyear?

✓ Controls what suppliers charge

Zahara controls your budget before you spend; Lightyear controls what suppliers charge after you've committed.

✓ Price checking automation

Lightyear automatically checks every invoice line against agreed supplier prices. Zahara does not.

✓ Statement reconciliation

Lightyear auto-reconciles supplier statements — Zahara has no equivalent feature.

✓ Fraud detection

Lightyear verifies supplier bank details on invoices to prevent payment fraud. Zahara has no such check.

✓ No user caps

Zahara caps users per plan tier (up to 35 on Enterprise). Lightyear has unlimited users on every plan.
