ABOUT COMPLEAT

UK-based purchase management and AP platform. Strong PO and requisition workflow features. No published pricing — contact sales required. Integrates with Sage, Xero, and NetSuite.

LIGHTYEAR WINS WHEN...

- Price transparency is important to the prospect
- Automated price checking against supplier rates
- Statement reconciliation is a pain point
- Free trial before commitment
- Fraud prevention on payment details

- Price transparency is important to the prospect
- Automated price checking against supplier rates
- Statement reconciliation is a pain point
- Free trial before commitment

WHY LIGHTYEAR — KEY DIFFERENCES

Charge vs Purchase Control

Compleat manages what you're buying. Lightyear controls what you're being charged for it — automated price checking on every invoice line.

Transparent Pricing

Lightyear publishes pricing online. Compleat requires a sales conversation before any pricing is shared — slowing down the evaluation process.

30-Day Free Trial

Lightyear offers a 30-day free trial. Compleat offers demonstrations only — no self-service trial to evaluate with real data.

Statement Reconciliation

Lightyear automates supplier statement reconciliation. Compleat has no native statement reconciliation capability.

Fraud Prevention

Lightyear verifies supplier bank details on invoices against your records. Compleat has no bank detail fraud detection.
