LIGHTYEAR WINS WHEN...

- Prospect needs PO management & 3-way matching
- Supplier price control is a priority
- Fraud prevention on bank detail changes
- Longer free trial helps decision makers

WHY LIGHTYEAR — KEY DIFFERENCES

Document Control

Dext captures your documents. Lightyear controls what's on them — price checking against agreed supplier rates catches overcharging automatically.

Purchase Orders

Lightyear creates POs natively and performs 3-way matching against delivery receipts. Dext has no PO creation or 3-way matching.

Fraud Prevention

Lightyear verifies supplier bank details on every invoice against your records. Dext has no bank detail fraud detection.

30-Day Free Trial

Lightyear offers a 30-day trial vs Dext's 14 days — giving finance teams more time to evaluate with real supplier data.

AP Focus

Built specifically for AP automation with supplier management workflows. Dext is primarily a document capture and bookkeeping tool.
