Storage	7 years	Xero hosted

LIGHTYEAR WINS WHEN...

- Full AP workflow needed, not just data extraction
- PO creation and 3-way matching required
- Price checking against supplier contracts
- Statement reconciliation automation

WHY LIGHTYEAR — KEY DIFFERENCES

Control What's On Them

EzzyBills gets your invoices into your accounting system. Lightyear controls what's on those invoices before they get there — checking prices, matching POs.

Full AP Workflow

Lightyear is an end-to-end AP platform: capture, price checking, PO matching, approvals, and reconciliation. EzzyBills focuses on extraction and coding only.

Purchase Orders

Lightyear creates POs natively and performs 3-way matching against delivery receipts. EzzyBills has no PO creation or matching capability.

Statement Reconciliation

Lightyear automates supplier statement reconciliation with one-click copy requests. EzzyBills has no statement reconciliation.

Fraud Prevention

Lightyear flags bank detail changes on invoices. EzzyBills has no bank detail fraud detection.

VS EZZYBILLS

ABOUT LIGHTYEAR

Lightyear is an AP automation platform built for businesses that want complete control over supplier invoices — from automated price checking and PO matching to multi-tier approvals and statement reconciliation. Part of The Access Group.
