WHY LIGHTYEAR — KEY DIFFERENCES

What Suppliers Charge

ProSpend manages how money is spent. Lightyear controls what suppliers are charging for it — verifying every invoice against agreed prices.

AP Invoice Focus

Lightyear is purpose-built for accounts payable invoice control. ProSpend is primarily a spend and expense management platform with AP add-ons.

Price Checking

Lightyear automatically compares invoice line items to your agreed supplier pricelists. ProSpend has no automated price checking capability.

Statement Reconciliation

Lightyear automates supplier statement reconciliation with one-click copy requests. ProSpend has no statement reconciliation.

30-Day Free Trial

Lightyear offers a 30-day free trial. ProSpend requires a demo and sales conversation before any evaluation is possible.

VS PROSPEND

ABOUT LIGHTYEAR

Lightyear is an AP automation platform built for businesses that want complete control over supplier invoices — from automated price checking and PO matching to multi-tier approvals and statement reconciliation. Part of The Access Group.
