WHY LIGHTYEAR — KEY DIFFERENCES

Without the Project

SAP Concur is built for global enterprise complexity. Lightyear is built for businesses that want powerful AP automation without the implementation project.

Transparent Pricing

Lightyear publishes pricing online. SAP Concur requires an enterprise sales cycle and custom quote before any numbers are shared.

30-Day Free Trial

Lightyear offers a 30-day free trial. SAP Concur requires a full enterprise demo process — no self-serve evaluation available.

Fast Implementation

Lightyear typically deploys in days. SAP Concur implementations run weeks to months with professional services involvement.

Statement Reconciliation

Lightyear automates supplier statement reconciliation. SAP Concur has no equivalent AP reconciliation feature.
