LIGHTYEAR WINS WHEN...

- Prospect doesn't need global mass payments
- Price transparency and fast setup matter
- Statement reconciliation is a priority
- SME or mid-market with under 500 invoices/mo

WHY LIGHTYEAR — KEY DIFFERENCES

Before the Money Moves

Tipalti moves money globally. Lightyear controls what you're paying before the money moves — catching pricing errors at the invoice stage.

Transparent Pricing

Lightyear publishes its pricing. Tipalti requires a sales call for a quote. Prospects get a decision in minutes, not days.

30-Day Free Trial

Lightyear offers a 30-day trial. Tipalti requires a demo and negotiated contract before you can evaluate the product.

Statement Reconciliation

Lightyear automates supplier statement reconciliation — catching missing and duplicate invoices. Tipalti has no equivalent feature.

Right-Sized for SME

Tipalti is built for complex global enterprise payments. Lightyear is built for businesses that want powerful AP automation without the implementation project.

VS TIPALTI

ABOUT LIGHTYEAR

Lightyear is an AP automation platform built for businesses that want complete control over supplier invoices — from automated price checking and PO matching to multi-tier approvals and statement reconciliation. Part of The Access Group.
