Feature	Lightyear	Compleat
Purchase order management	Native, line-level	Core P2P strength
Automated price checking	Vs agreed supplier pricelist	Not available
Line-item data extraction	Smart Extract+, AI-based	OCR-based
Supplier statement reconciliation	Automated, 1-click	Not a core feature
Approval levels	Up to 8, mobile-enabled	Multi-tier, configurable

✓ AI Data Extraction

Line-item extraction across invoices, receipts, credit notes and more.

✓ Catches overcharging

Automated price checking flags discrepancies against your agreed supplier prices — before approval.

✓ Full PO workflow

Create purchase orders, receive goods, and match invoices — all in one system.

✓ Statement Reconciliation

Automatically match supplier statements against your records to catch missing, duplicate, or mismatched invoices — before they become a problem.
