Purchase order & 3-way matching	Native, line-level	PO management included
Line-item data extraction	Smart Extract+, AI-based	Smart coding, receipt match
Supplier statement reconciliation	Automated, 1-click	Not available

✓ AI Data Extraction

Line-item extraction across invoices, receipts, credit notes and more.

✓ Catches overcharging

Automated price checking flags discrepancies against your agreed supplier prices — before approval.

✓ Full PO workflow

Create purchase orders, receive goods, and match invoices — all in one system.

✓ Statement Reconciliation

Automatically match supplier statements against your records to catch missing, duplicate, or mismatched invoices — before they become a problem.
