Feature	Lightyear	Traild
AI fraud & anomaly detection	Price checking, not fraud-specific	Always-on anomaly detection
Automated price checking	Vs agreed supplier pricelist	Not the primary focus
Purchase order & 3-way matching	Native, line-level	2 & 3-way matching
Supplier statement reconciliation	Automated, 1-click	Automated
ERP depth (Acumatica/SYSPRO)	NetSuite, AccountsIQ, iplicit	Deep native ERP sync

✓ AI Data Extraction

Line-item extraction across invoices, receipts, credit notes and more.

✓ Catches overcharging

Automated price checking flags discrepancies against your agreed supplier prices — before approval.

✓ Full PO workflow

Create purchase orders, receive goods, and match invoices — all in one system.

✓ Statement Reconciliation

Automatically match supplier statements against your records to catch missing, duplicate, or mismatched invoices — before they become a problem.
